Dear PTA Committee,

I founded My Nametags 22 years ago, when my children were little, to create the best labels possible and help families and schools reduce lost property

For years, we have helped schools and parents stay organised with high-quality, waterproof labels that are guaranteed not to fall off. Our labels are the only ones in the industry to feature an antibacterial coating, and we are proud to be the only label company to have received a Queen's Award, presented by King Charles. Our labels reduce lost property, ease worries for parents, and save valuable time for teachers, making everyday school life simpler.

We partner with schools and PTAs to support fundraising with a product parents genuinely need and trust.

A simple solution, backed by experience, quality, and care by helping your school community stay organised.

Yours faithfully

Lars Andersen,
Founder of My Nametags
